

Residential Rooftop Solar Installation

PROJECT & CONSUMER DETAILS

Name of Consumer	Aryan Tembhekar
Consumer No.	PGVCL-0012
Discom ID (District)	Junagadh
Address of Installation	A 2/1 society
Project Number	PRJ-2026-F1B54299
Quotation Number	QUO-2026-75630B84
RTS Capacity Applied	3.40 kW
Actual RTS Capacity to be Installed	3.40 kW
OEM / Panel Brand	khkjkhk
Channel Partner	Shree Enterprise
EPC Contractor Address	afstyjukilj
EPC Bank Details	fdsghj,k
Vendor Registered in MNRE Portal?	YES
Feasibility Status	FEASIBLE YES
Project Cost (All Inclusive)	INR 1,33,973.55

FEASIBILITY ASSESSMENT

Site Surveyor: Local Administrator Designation: ENGINEER / AGENT

TYPE OF ROOF	CONCRETE SLAB
AREA OF ROOF	>500 sq. ft.
SHADING ANALYSIS	SHADOW FREE AREA
FEASIBLE FOR FASTENING	YES
EXISTING METER DETAILS	SINGLE PHASE
LAND SUITABILITY FOR EARTHING	YES
MAX-MIN TEMPERATURE RANGE	10C TO 45C
GRID VOLTAGE	250 V
ACCESSIBILITY FOR WIRING	YES
WORK FRIENDLY ENVIRONMENT FOR LABOUR	YES
ACCESSIBLE ROOF	YES
WHETHER ROOF HAS LEAKAGE	NO
ORIENTATION & TILT OF ROOF	FLAT SURFACE
WHETHER PREMISES HAS INVERTER INSTALLATION POINT	YES

WHETHER PREMISES HAS BI-DIRECTIONAL NET METER SPACE	YES
HAZARD IDENTIFICATION (PROXIMITY TO POWER LINES)	NO
CONSUMER HAS ALL NECESSARY DOCUMENTS (GOVT. GUIDELINES)	YES

Site layout images: Upload 24 site photographs to the PM Surya Ghar portal or the customer document checklist.

BILL TO	PROJECT SPECS
Aryan Tembhekar A 2/1 society	Capacity: 3.40 kW - Panels: 7 Panel: 540 WP - khkjkhk Inverter: hjkkj

LINE ITEMS

#	Description	KW	Amount
1	Grid Connected Rooftop Solar System	3.40	INR 1,33,973.55
2	GUVNL subsidy as per applicable norms	1.00	Subject to portal eligibility
3	DISCOM meter and stamp charges	1.00	As applicable
4	Fabrication / additional customization	1.00	As approved
TOTAL ERP-APPROVED PROJECT VALUE		-	INR 1,33,973.55

T&C: Three-phase meter or site-specific DISCOM charges, additional structure height and non-standard civil work are charged only after approval.

COMPONENT SPECIFICATIONS

Component	Description	Make / Brand
PV Module	Monocrystalline Half Cut Bi-Facial	khkjkhk
Inverter	On Grid Inverter	hjkkj
Protection System	DC & AC MCB and SPD	L&T / Equivalent
Cable	Copper flexible for DC & AC	Aluminium LA 16 sqmm POLYCAB / WACAB
Structure	Hot-Dip ISI GI Pipe 6040 & 4040 mm	Hindustan / Stark
PVC Pipe	Conduit Pipe ISI Standard	Standard
J Bolt	8 mm Stainless Steel	Standard
Earthing Kit	Copper coated 1M rod + chemical bag + Lightning Arrester	Standard

Annexure 2 PM Surya Ghar: Muft Bijli Yojana

This agreement is executed on 2026-07-28 for design, supply, installation, commissioning and five-year comprehensive maintenance of the RTS project/system along with warranty.

FIRST PARTY (CONSUMER)

Aryan Tembhekar
A 2/1 society

SECOND PARTY (VENDOR)

Shree Enterprise
afstyjukilj

THE FIRST PARTY UNDERTAKES TO PERFORM

1. Submit the online application at the National Portal, net-metering application, inspection request and relevant scheme documents.
2. Provide secure storage of RTS plant material delivered at the premises until system handover.
3. Provide roof access for installation, testing, operation and maintenance, and meter or inverter reading.
4. Provide electricity during installation and water for cleaning the panels.
5. Report any plant malfunction to the vendor during the warranty period.
6. Pay according to the mutually agreed payment schedule, including approved additional site-specific work or customization.

THE SECOND PARTY UNDERTAKES TO PERFORM

1. Follow all safety guidelines, state regulations and MNRE technical standards. Supply, installation and commissioning remain the vendors responsibility.
2. Site Survey: Visit and survey the site, prepare the project report, and assess roof feasibility, roof strength and shadow-free area. Additional customization shall be separately estimated and approved.
3. Design & Engineering: Prepare plant design, drawings and component selection according to DISCOM, SERC and MNRE requirements.
4. Module and Inverter: Supply eligible modules and inverters conforming to applicable MNRE standards, quality-control orders and labelling requirements.
5. Procurement & Supply: Procure the complete system according to applicable BIS, IS and IEC standards and subsidy-eligibility requirements.
6. Installation & Civil Work: Complete required civil, structural and electrical work while following applicable safety and BIS standards.
7. Documentation: Provide technical catalogues, warranty certificates, BIS certificates, test reports, serial numbers, layouts, SLD, structure drawings and cable details needed for portal submission.
8. Project Completion Report: Assist the consumer with signed PCR documents and National Portal submission.
9. Warranty: Provide system and component warranty documents. The complete system shall carry five-year vendor support from DISCOM commissioning, subject to the agreement and manufacturer terms.
10. Net Meter & Grid Connectivity: Assist with net-meter procurement, testing, approval and plant grid connection.
11. Testing and Commissioning: Remain present and provide assistance during DISCOM testing and commissioning.
12. Operation & Maintenance: Provide five years of comprehensive operation and maintenance and educate the consumer on module cleaning and system care.
13. Insurance: Material transfer and storage insurance before commissioning remains in the vendor scope where applicable.
14. Applicable Standard: Supply components and services meeting standards notified by MNRE and the State DISCOM.
15. Project Cost & Payment Terms: Record the mutually agreed plant cost and milestone payment schedule in the approved quotation and ERP workflow.
16. Dispute: Consumer and vendor shall settle disputes mutually or according to law; MNRE and the Distribution Utility are not parties to the dispute.
17. Subsidy Documents: Provide and help upload project documents required for National Portal subsidy processing.
18. Plant Performance: Target a Performance Ratio of 75% at commissioning and support required testing under the applicable scheme and DISCOM procedure.

COMPANY AGREEMENT WORDING

dfghjk

ADDITIONAL TERMS

vxfbcvnm

Disclaimer: This agreement is between vendor and consumer. Any dispute related to it shall not involve MNRE or the Distribution Utility except where required by law or applicable scheme procedure.
